

**Information Release Authorization.**

I authorize Public Power to obtain information from the Utility prior to and during the term of my agreement, including, but not limited to, account name, account number, billing address, service address, telephone number, standard offer service type, historical and future electricity usage, rate classification, meter readings, characteristics of electricity service and, when charges under this agreement are included on my Utility bill, billing and payment information from the Utility. I authorize Public Power to release that information to third parties who need to use or be aware of such information in connection with my electric generation service, as well as to its affiliates and subcontractors for marketing purposes. These authorizations shall remain in effect as long as my agreement (including any renewal) is in effect. I may rescind these authorizations at any time by either calling Public Power or providing written notice to Public Power. Public Power reserves the right to reject my enrollment or terminate the agreement if I rescind these authorizations, if I fail to meet or maintain satisfactory credit standing as determined by Public Power, or if I fail to meet minimum or maximum threshold electricity consumption levels as determined by Public Power. If I fail to remit payment in a timely fashion, Public Power may report the delinquency to a credit reporting agency.
